

2012 Medco Preferred Formulary for the UFT Welfare Fund

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of our prescription drug benefit. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

PLEASE NOTE: An asterisk (*) next to a medication signifies that it may move to nonformulary status when the generic becomes available during the year. Not all the medications and/or products listed are covered by the UFT Welfare Fund prescription drug benefit. Check your benefit materials for the specific drugs covered and the co-payment information. For specific questions about your coverage, please call the phone number printed on your UFT Welfare Fund/Medco prescription drug ID card.

Brand-name drugs are listed in CAPITAL letters.
Generic drugs are listed in lowercase letters.

KEY

The symbol [AC] next to a drug name indicates that a medication is available through Accredo.
 The symbol [HP] next to a drug name indicates that this medication is covered through your health plan.
 The symbol [INJ] next to a drug name indicates that the drug is available in injectable form only.
 The symbol [PA] next to a drug name indicates that this medication is subject to the prior authorization program.
 The symbol [PICA] next to a drug name indicates that this drug should be obtained through the NYC PICA program.
 The symbol [STP] next to a drug name indicates that the medicine is part of the step therapy program.
 The symbol [†] next to a brand-name drug indicates that if that drug is filled through the mail-order pharmacy, the generic co-payment will be applicable as long as the prescription DOES NOT indicate dispense as written or that the brand is required.

For the member: Generic medications contain the same active ingredients as their corresponding brand-name medications, although they may look different in color or shape. They have been FDA-approved under strict standards.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate. Thank you.

Brand-name drugs are listed in CAPITAL letters.

Generic drugs are listed in lowercase letters.
