

AT THE HEART OF HEALTH®

2009 Medco Preferred Formulary for the UFT Welfare Fund

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of our prescription drug benefit. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

PLEASE NOTE: An asterisk (*) next to a medication signifies that it may move to nonformulary status when the generic becomes available during the year. Not all the medications and/or products listed are covered by the UFT Welfare Fund prescription drug benefit. Check your benefit materials for the specific drugs covered and the co-payment information. For specific questions about your coverage, please call the phone number printed on your UFT Welfare Fund/Medco Prescription Drug ID Card.

Brand-name drugs are listed in CAPITAL letters.
Generic drugs are listed in lowercase letters.
