## A Guided Tour of two Exhibits plus The Panorama of the City of New York

### Exhibits

#### Tarjama / Translation

The exhibit addresses how contemporary artists negotiate the formation of history influenced by continued states of dislocation and track newer dilemmas engendered by a globalized world saturated with the hyper-commercialism of media and popular culture.

#### Iron Folklore

An extensive site-specific installation work by Johanna Unzueta. Drawing from her recurrent interest in the history of labor, Unzueta creates sculptural and environmental installations often made exclusively of thick felt.

Space is limited. Please complete the tear-off below by **September 14th**
