“Commitment to Action”

Effective leaders are action oriented and lead by setting examples. They dedicate themselves to action. This is your commitment to implement one idea from today’s program.

Write below the single most important idea you heard or thought about today.

Briefly brainstorm how you can use this important idea, within the next 5 days in your work or personal life. Make sure to include a firm date by which this idea will be implemented.

How will you, or the people around you, benefit by your implementing this idea?

A support system is essential any time you attempt to make a change. List the names of the people who can help you with the implementation of this idea. After each person’s name, briefly state how this person can help.
