

Home Test Kit Letter: Symptoms of COVID Letter

[Insert school letterhead]

[Insert date]

Dear Families,

You are receiving a COVID-19 home test kit because your child was experiencing symptoms of COVID-19 while at school.

Here is how you should use your test kit:

- Please help your child take the first test **immediately**.
- Please help your child take the second test **24 hours later**.
- Your child **may not attend school** until they receive two negative home tests taken within 24 hours and have been fever-free for 24 hours without the use of fever-reducing medication OR if your child receives a negative test result from a PCR COVID test.
- If your child tests positive on either home test, your child must isolate for 10 days following the first positive result. Please contact your child's school immediately and for further guidance.

All test kits come with printed instructions, please follow these instructions when administering the test. You can also check your test kit and watch a video on how to use your test kit:

- ACON Flowflex: <https://youtu.be/CtENzECCmG8>
- Carestart: https://youtu.be/r6juU4wMz_g
- iHealth: https://youtu.be/_juFqYt25il
