Cancer screenings are important, so please don’t wait. Take charge of your health.

Take the first step with a short, no-cost assessment (available in English and Spanish) to receive personal screening recommendations from Memorial Sloan Kettering Cancer Center. In less than 5 minutes, you can learn if you are due for any cancer screenings. You also can learn if you’re at higher risk for certain cancers. If so, you may benefit from genetic testing.

To start now, please click here or visit uft.org/msk-direct.

If you or a family member are impacted by cancer and would like to discuss treatment options at MSK, call your dedicated MSK Direct phone line for UFT members: 844-350-5034.
