<p>Mandate Matching</p> <p>All active mandates listed on the Encounter Attendance Service Record match the mandates from the most recent <i>Individualized Education Program (IEP)</i>, <i>Individualized Educational Service Plan (IESP)</i>, <i>Services Plan (SP)</i>, or <i>Comparable Service Plan (CSP)</i>. This allows providers to select the correct mandate to service, making it easier to ensure students receive the services outlined on their IEP.</p>	 <p>The screenshot shows a table of 'RELATED SERVICES' with columns for service type, language, frequency, duration, location, and start date. Below the table is a 'Mandate Short Description on Service Record' field containing 'S:IEP:SP:2W:30:1:EN:10M:3'. A 'lookup' button is next to it. Below the description is a section 'Add Mandates to the list (Check all that apply and click lookup to view Mandates list):' with checkboxes for 'Mandated Service (IEP/IESP/SP/CSP)', 'Compensatory Services', 'Add All Service Types', and 'Add Expired/Outside Term Mandates'.</p>
<p>Mandate Short Description</p> <p>The <i>Mandate Short Description</i> field and the <i>Select Mandate</i> pop-up window displays abbreviated mandate details from the <i>Individualized Education Program (IEP)</i>, <i>Individualized Education Service Plan (IESP)</i>, <i>Service Plan (SP)</i>, or <i>Comparable Service Plan (CSP)</i>. The <i>Mandate Short Description</i> lists the type of student (i.e., S for School-age, P for Pre-k), type of conference document, service type, mandate frequency, duration, group size, language of service, 10- or 12-month service, and the numbered order of the mandate on the IEP.</p>	 <p>The diagram shows the format 'S:IEP:SP:3W:30:1:EN:10M:3' with arrows pointing to each part: 'S' is Student Type, 'IEP' is Conference Type, 'SP' is Service Type, '3W' is Mandated Frequency, '30' is Mandated Duration, '1' is Mandated Group Size, 'EN' is Mandated Language of Service, '10M' is Months of Service, and '3' is Order Listed on IEP.</p>

The <i>Select Mandate</i> pop window does not appear if the student only has one active mandate for a specific service type. Instead, the mandate is displayed in the <i>Mandate Short Description</i> field.</p>	 <p>The screenshot shows a 'Select Mandate' pop-up window with a table of active mandates. The table has columns for Mandate Short Description, Mandate Service Term, Mandate Service Type, Mandated Language of Service, Mandated Frequency, Mandated Duration, Mandated Max. Group Size, Mandated Service Location, Mandate Start Date, and Mandate End Date. Two rows are visible, both for Speech-Language Therapy in English.</p>
<p>Compensatory Services</p> <p>The <i>Compensatory Services</i> checkbox is used to encounter services that are not associated with an IEP recommendation. It should only be selected for services that differ from the recommendations on the active IEP, including services provided pursuant to an impartial hearing order, resolution, or settlement, Special Education Recovery Services (including any <i>Compensatory Services</i>), and <i>Alternate Placement Paraprofessional</i> services.</p>	 <p>The screenshot shows the 'Mandate Short Description' form with the 'lookup' button. Claimed Frequency	<p><i>Claimed Frequency</i> is the portion of the mandate assigned to the provider's caseload entering the service record. A provider's caseload may, if necessary, include less than the full mandated frequency for a mandate due to limited schedule capacity. In these instances, a second provider may be assigned the balance of the mandate, resulting in it being fully served. The full IEP <i>Mandated Frequency</i> will pre-populate on the service record. If the provider is servicing the entire mandated frequency, the value does not need to change on the <i>Claimed Frequency</i> field. On the other hand, if the provider is servicing a part of the mandated frequency, the provider must select the partial frequency from the <i>Claimed Frequency</i> dropdown menu. The claimed frequency does not impact the ability of other providers to record student encounters.</p>
