# MISSION STATEMENT

---

The Positive Learning Collaborative (PLC) is a partnership between the United Federation of Teachers and the NYC Department of Education that helps schools ensure every child develops the social, emotional and academic skills needed to succeed in school and life.

Our work at each school begins with the implementation of Cornell University's four-day certification course, Therapeutic Crisis Intervention for Schools. We believe change can only truly occur when an entire school community uses the same language about behavior, enabling them to establish internal systems that support teachers and students.

Training is only the beginning. PLC provides classroom consultation to assist in the implementation of therapeutic crisis intervention; positive behavior interventions and support; social-emotional learning skills; and restorative practices. Adults learn how to help children facing challenges like homelessness or disability, and who are more likely than their peers to be disciplined or suspended.

To ensure success, PLC has developed an in-depth survey measuring and analyzing a school's climate. Our team collaborates with every school to develop an individualized, faculty-driven action plan that addresses areas of need identified in the staff's survey results. This approach ensures faculty participate in the school's decision-making process.
